WILSON'S WISHES NOT LIKELY TO CONTROL IN INAUGURAL.

CABINET AGITATES IT

Capital City Busy Naming Members—Redistricting Causes Worry—How Morgan's Fortune Was Built.

(By W. C. VanCleave.)
Washington, D. C., December 28.—Now that a chairman has been selected to head the committee on inaugural arrangements, Washington has settled down and imbibed the Christmas spirit. The matter of who shall be allowed to claim responsibility for the mistakes in the inaugural program next March and of who shall be floor manager for the inaugural ball are viewed by the permanent transients here with far greater concern than any policy of government. These contests for social supremacy and local notoriety never fail to precipitate a furious campaign. Being deprived of the right to vote and the joy of holding elections or city, county, state or national officials, the men of the district are compelled to spend their energies on matters that seem to the non-resident as wholly unimportant.

Notwithstanding the fact that Governor Wilson has requested that the inaugural ceremonies be as simple as possible, preparations are being made for an elaborate affair. An effort is being made to rid the city of vice and criminals for the protection of the visitors, and an adequate police force has been requested for the purpose of holding both visitors and residents within legitimate bounds. It has sometimes happened that the crowds could not be controlled. It is said, for instance, that when President McKinley was inaugurated the second time a regiment of soldiers from Pennsylvania took the town. They disarmed policemen, stopped milk wagons and drank the milk and committed all sorts of depredations. They were quartered in one of the public buildings and the state of Pennsylvania was afterward compelled to appropriate the sum of \$50,000 to reimburse the government for the damage done to that building. No such behavior as that is expected at the next inaugural.

The new cabinet is a source of much speculation among the politicians remaining here. Governor Wilson seems to be doing much conferring and advising with the leaders of all elements of the party but keeping his own counsel. So far all are at sea and he has announced that it will be several weeks yet before he makes known any of his selections. The cabinet makers, however, have allowed themselves no rest and persist in giving places to Mr. Bryan and a number of others. One of the latest ideas advanced makes Mr. Bryan secretary of state, Chairman McCombs secretary of the navy, Josephus Daniels of North Carolina postmaster general, Representative A. Mitchell Palmer of Pennsylvania attorney general, Representative Burleson secretary of the interior. Jack Walters, formerly of the Missouri college of agriculture at Columbia, but now head of the Kansas school, is being urged by many friends as the best equipped man in the country for secretary of agriculture.

Ex-Gov. Lon V. Stephens of St. Louis is a candidate for comptroller of the currency. He has special qualifications for the place and will have strong backing. James W. Witten of Albany, Mo., for several years chief law clerk in the general land office, is a candidate for commissioner of the general land office and will likely have the support of the Missouri delegation for the place.

Applicants for the various federal places at St. Louis and Kansas City are numerous and will likely cause distress to both senators and some of the members of the house. Senator Stone already has a good sized blank book well filled with the names of applicants for places, while Senator Reed is endeavoring to keep his list in a big filing cabinet.

A matter that is going to cause some concern to members of the Missouri delegation is the possibility of a general redistricting of the state. The new apportionment raised the average required population of congressional districts to about 210,000. There has been a considerable loss in some of the Missouri districts, a fact that is true over all North Missouri, and some

George Chamberlain Brought Suit Against A. O. Mason for Value of Some Property.

A petition was filed in the circuit clerk's office Tuesday by Attorney W. E. Wiles for George W. Chamberlain against A. O. Mason. According to the petition the plaintiff was the owner and was entitled to the immediate possession of the following personal property on December 27, 1912: One gray horse, 10 years old and weight about 1,400; one bay team of horses 8 and 9 years old, weight about 1,100; seven head of milk cows, 4 to 7 years old; one red bull, 3 years old. The aggregate value of all the stock is placed at \$705. On or after December 27, the petition states that the defendant, being then wrongfully in possession of said personal property, unlawfully converted the same to his own use and sold and disposed of same to plaintiff's damage in the sum of \$705. The plaintiff asks for \$705 with interest from December 27.

SIMMONS GETS IT NEW LAW IN FORCE

ELMO PROPERTY GOES TO KANSAS MAN ON COMPROMISE.

SETTLED OUT OF COURT

Many Younger Cases Disposed of in Deal and Receiver Discharged—Bank Releases Real Estate.

Many cases against Joe Younger, Carrie Younger and the Elmo Improvement and Business company which have been up in circuit court for some time were settled today by agreement of several of the plaintiffs in the various suits.

Judgment, foreclosure and an order of sale was given to O. A. Simmons of Atchison, Kan., on all of the real estate in Elmo. This consists of the opera house building, the light plant building, four store buildings and the residence. Mr. Simmons will probably also get the Westboro property. His claim was for \$3,507.24.

The receivership as to the property was dissolved and the receiver, Geo. W. Walton of Elmo discharged.

In the attachment suit of the Nodaway Valley bank against Joe and Carrie Younger, the plaintiff releases real estate levied upon on writ of attachment. The attachment suit is still in court, however, on the personal property of Younger. Younger had about \$700 personal property, consisting of household goods and many other articles.

There will still remain on the court docket a few suits against Younger, such as attachment suits, but the largest claims against the former Elmo financier were all settled.

NEW TEACHER AT CONSERVATORY

Graduate of One of the Oldest Schools of Music in the Country Coming Next Week.

Miss Gayle Jackson, a graduate and post-graduate of the conservatory of music of Cincinnati, O., one of the oldest schools of music in the country, will arrive in Maryville next week to become a member of the faculty of the Maryville Conservatory of Music. Miss Jackson has been a soloist in some of the best choirs in Cincinnati, and comes well recommended.

Miss Norris of Donaldsonville, La., who was announced last week for the position that will be taken by Miss Jackson, could not come to Maryville until the close of her contract with the college with which she is connected, as the board of trustees would not release her.

NEW LAW IN FORCE

WEDNESDAY SEES START OF PARCELS POST SYSTEM.

THE NEW REGULATIONS

Department Prescribes the General Rules, But Local Authorities Are Expected to Use Discretion.

Everything is in readiness at the postoffice for the installation of the parcels post system, which goes into effect throughout the United States Wednesday. While the general regulations sent out by the postoffice department have been specific, much has been left to the discretion of postmasters, who are expected to work out the local details.

All parcels for mailing will be received at the window used by the registry department, and when this is opened at 8:30 o'clock Wednesday morning the parcels post system will be in operation. Above the window will be placed a placard, upon which will be these words in large letters: "Parcels post, Stamp, Rate and Mail at This Window."

Following are some of the general rules that will apply to the mailing of parcels: All parcels must bear the parcels post stamp; parcels may be mailed just as other mail matter; parcels post matter will be delivered at the door by carriers.

The maximum weight for parcels is eleven pounds and they must not measure more than twenty-two inches in width. They may be insured for their value for any amount up to \$50 by the payment of 10 cents.

It is expected that the railway mail clerks will feel the parcels post more heavily than any other branch of the postoffice department, and it is predicted that it will be inconvenient, owing to lack of car space.

There arrived at the postoffice this morning from Washington three rubber stamps carrying the words "insured," "perishable" and "fragile." They are to be used on parcels post packages.

Parcels must not be sealed and must be so prepared as to permit of easy examination. Such parcels as contain two or more classes of mail matter are chargeable with postage at the rate prescribed for the higher class.

All matter which is declared unmailable by law will be unmailable as parcels post matter. This includes obscene, indecent and immoral matter, intoxicating liquors, poisons, live animals, birds and poultry, inflammable

articles and such things as raw hides or pelts or other articles having a bad odor.

The regulations prescribe minutely methods to be used in packing parcels. Liquids and oils, paste and saive, sharp instruments, ink powders, pepper and snuff, must be placed in water-tight receptacles, and in many instances surrounded by absorbent material to prevent damage to other mail matter.

Articles such as millinery, toys, musical instruments and glassware must be labeled "fragile."

One of the interesting features of the regulations concerns perishable articles. In this class are placed butter, lard, fish, fresh meats, dressed fowls, vegetables and fruits and berries. Provision is made for carrying almost every article produced in the farm except live animals and live fowls.

BELL TRANSFER MADE.

Hanamo Takes Over Local Switchboard While Bell Acquires Toll Lines.

The sale of the Bell local exchange to the Hanamo company of this city was made today, so it was announced this afternoon. The papers were all signed and the Bell plant will be combined with the Hanamo.

The closing details of the deal were made at Kansas City, where Manager H. C. Todd and Attorney George Robb Ellison are today.

The Hanamo is to take over only the Bell local exchange. It will probably take three or four months to arrange all of the phones and to connect them with one office. Then a new switchboard is to be put in so the Hanamo will have the latest and most up to date service.

The Bell will still have an office in Maryville, as that company is to take over all of the Hanamo toll lines and also their own toll lines. Any phone subscriber of the Hanamo, however, can use these toll lines at same rates as now charged, as the Bell and Hanamo will be connected with trunk lines for long distance service.

Manager W. E. Jones of the Bell exchange will remain in the city for three or four months until the transfer of the property is made. After that he has a fine position offered to him at some other place by the Bell company.

ANNIVERSARY JUBILEE.

Guliford M. E. Church, South, Will Celebrate Birthday of Church Dedication January 12.

On Sunday, January 12, the members of the M. E. church, South, at Guliford and their friends will celebrate the second anniversary of the dedication of their church edifice with an all-day meeting. The present church building was dedicated on the 15th of January, 1911.

Rev. S. E. Hoover, pastor of the Guliford and Ravenwood circuit, will preach three sermons that day, the first at 11 o'clock, the second at 2:30 in the afternoon and the third at 7:30 in the evening.

Dinner will be enjoyed at the church, so that a social time may be enjoyed and give all opportunity to attend all the services if they wish.

The day will begin with Sunday school at the usual hour and the Epworth League service will be held at 6:30.

Rev. J. D. Randolph, pastor of the M. E. church, South, of Maryville, has the credit for the preliminary work that ended in a church house for the South Methodists of Guliford. The dedication service was held by the then presiding elder, Rev. W. E. McMurray of St. Joseph, who is now secretary of the South Methodist board of missions.

LEAVES IT ALL FOR MAJOR.

Hadley Announces He Will Not Fill the Vacancies That Will Occur on Boards.

Governor Hadley stated Monday that he would not fill any vacancy occurring on the boards of any of the state educational institutions January 1, but will leave these appointments to Governor Major. He says he does this because Governor Folk treated him with the courtesy of not filling vacancies just before he went out of office, and he will extend the same courtesy to his successor in office.

Two of these vacancies are for the Maryville State Normal. The terms of Henry J. Hughes, Trenton, and O. P. Wilson, Plattsburg, Republicans, will expire January 1.

The governor also said he would not take up any more applications for pardons or paroles during the remainder of his term. There are fifteen or twenty cases now under consideration and these will be all that he will have time to consider.

A DOUBLE CONTEST

ORAL AND WRITTEN TESTS FOR BEST SPELLERS.

THREE PRIZES IN EACH

County Contest to Be Held March 7, and the Winner of Written Contest to Represent County.

The Nodaway county spelling contest will be held in Maryville Friday, March 7. There will be a double contest, written and oral spelling. The written contest will be held from 4 to 5 o'clock on that day and the oral contest will begin at 7:30 o'clock that evening. Both contests will be held in the high school building.

The following are the rules of the contest and the committees in charge for each township as announced by County Superintendent Oakerson:

Township preliminary contests will be held about two weeks prior to the county contests. The committee appointed for each township will arrange the time, place and judges for the preliminary contests. I would suggest that they be held on Friday, February 21, or Saturday, February 22.

Each school is entitled to three representatives to the county contest. The representatives from each township will be selected by preliminary contests.

All pupils, in the first eight grades, attending the public schools for three-fourths of the term prior to the preliminary contest, shall be eligible to enter this contest, except such pupils as may have received the common school diploma, or are doing high school work.

There will be a double contest, a written contest and an oral contest. The contests will be held in the Maryville high school building. The written contest will be held from 4 to 5 p. m. and the oral contest will begin at 7:30 p. m.

Prizes will be given for both contests. Three prizes will be given for each: First prize, a gold medal; second prize, a silver medal; third prize, a bronze medal. The one who wins the first place in the written contest will be a delegate to the state spelling contest.

Each pupil will be allowed only one trial on spelling a word. A word misspelled will not be passed, but marked against the one who misses it and another word pronounced to the next one to spell.

The words used in the contest will be found in "Hunt's Progressive Speller," beginning on page 100.

Editor Democrat-Forum: I would like to call the attention of the citizens of Maryville to what I consider a great nuisance to a beautiful and clean Maryville.

I would also like to ask if there is not an ordinance against draymen loading their wagons so full of garbage that they scatter it over the streets, leaving it for every wind to scatter over the parkways, lawns, etc.?

I have noticed draymen drive along the streets dropping old shoes, papers, tin cans, straw, sticks and whatever the wagon happens to be loaded with. I believe it is the duty of the city officials to see that this thing is stopped. Yours for a cleaner and better Maryville.

of the members see all sorts of trouble ahead.

J. Pierpoint Morgan's recent appearance before the investigating committee furnished many an opportunity to get their first look at the wizard of Wall street. Strange to say he appears, generally speaking, not unlike other individuals one meets here daily. He has neither a prize fighter's nor a lion's jaw. He wears no diamonds. He has neither rings in his ears nor bells on his toes. He wears a silk hat which is a common practice in the east among men of means. His forehead slopes to leeward, but it is a wise head. He has a nervous, fidgety manner, and when he speaks his jaws come together with a snap like an alligator. He has a large nose, unnaturally large at the point. He assumes, moreover, a most becoming innocence of the power of concentrated wealth. Although it was shown that he controls the interlocking directorates in corporations with more than twenty-five billions of capital, he meekly confessed that he had no influence that would induce them to do anything contrary to the interests of the stockholders and the general public. Mr. Morgan found it difficult to adjust his ideas of what constituted a great amount of wealth to the notions of his hearers. When Samuel Untermyer asked him if he was not largely interested in a certain New York bank he said he was not.

"You own a large amount of stock, do you not?" insisted the attorney.

"No, only a small amount," said Mr. Morgan.

"Well, now, don't you own more than a million dollars worth of the stock?" continued Mr. Untermyer.

"Oh, yes, yes, but I do not remember the exact amount."

Mr. Morgan did not join in the laugh that went around the room because he saw nothing funny, nothing unusual in it. As the elephant of the jungle treads unconsciously upon the worm of the dust and crushes out its life, so this man, who counts not his thousands but his hundreds of millions, takes his walks in Wall street and the fortunes of thousands of his fellow men crumble in his wake—and he knows it not.

A very unique leap year party was given at the opera house last Saturday night by Misses Della Nash, Cloe Jefferies, Bess Burch and Lottie Loudon. The list of guests included the members of the Dresswell club and a few of their friends. Each guest was asked to dress as a country kid, and the opera house was designated as the country home of the young ladies giving the party. We think the idea was not carried out very well, as the country kids are the best dressed people we see nowadays, while some of the costumes at this party will go down in history for the originality and artistic taste displayed (?). Miss Lou Hughes received the prize for the best lady's costume and Rex Lincoln for the best gentleman's costume. Refreshments were served at intervals during the evening, consisting of popcorn, apples, nuts, candy, pumpkin pie, elder, etc. The following members of the club and their gentlemen friends were present: Mrs. O. L. Mutti, Misses Lottie Miller, Helen McKee, Lou Hughes, Lois Bonewitz, Edna Bonewitz, Bertha Cross, Frances Miles, Ethel Ulmer, Cleo Kline, Gladys Pennington, and the hostesses, Della Nash, Cloe Jefferies, Bess Burch and Lottie Loudon.

MEDIATION IS TURKEY'S PLAN

PORTE WOULD SAVE ITS FACE

Balkan Delegates Intend to Present Ultimatum at Next Session of Conference and Will Waste No More Time—Expect to Force Crisis.

London, Dec. 31.—After a fortnight of sparring and feinting Turkey has finally shown its hand in the peace conference. Mediation by the great powers is the Ottoman scheme for emerging from the war with the best face for the nation and for the plenipotentiaries which the situation will permit.

The Turkish delegates proposed this solution in diplomatic, guarded terms. The meeting was brief and more restrained than any which preceded it and the Turkish tactics were characteristic.

The delegation had received fresh instructions from the porte, Rechad Pasha announced, but part of the telegram was undecipherable and must be repeated to Constantinople for translation. Then Rechad Pasha came to the point to which the Ottomans had been leading up since the beginning. In the opinion of their opponents, he declared he was able to state that most of the questions under discussion should be referred to the powers. The boundary between Bulgaria and Turkey was an exception; that was a matter, he said, for direct settlement between the two governments.

Allies Tire of Delay.

As the Turkish delegates attempted to discuss the questions at issue informally, but the allies insisted they should put their propositions in writing, which, after a conference, the Turks said they were not prepared to do.

The allies propose to bring affairs to a crisis by a statement in the nature of an ultimatum at the session of the conference tomorrow. They express the determination not to waste more time in waiting for telegrams and consultations, real or pretended between Constantinople and the Turkish delegates in London, and will meet at an early hour tomorrow to decide upon their policy.

M'VEAGH ORDERS CHANGE

Federal Disbursing Officer's Checks to Be Cashed by National Banks.

Washington, Dec. 31.—Secretary MacVeagh ordered a revolutionary change in the business methods of the treasury department in handling the income and expenditures of the federal government which is expected to lessen interference by the treasury with the fiscal operations of the country, make the government deposits in United States depositories more active and inure to the benefit of the public by obviating the payment of exchange on government checks.

Effective Feb. 1, the accounts of the federal disbursing officers will be placed with the treasurer of the United States and all disbursing officers' checks drawn on that official may be cashed by any national bank designated as a United States depository. Banks making such payments may immediately replenish the specified account from federal customs or internal revenue receipts daily deposited. The banks thus will forward to the treasuries only the excess of receipts over expenditures. If the expenditures are greater than the receipts the treasuries will supply the deficiency.

ROBS DOZEN HOUSES

Barber Turns Burglar to Keep His Wife From Death's Door.

Kansas City, Dec. 31.—Five weeks ago William Howard, nineteen years old, and his wife, eighteen years old, came to Kansas City from Gordon, Neb., filled with the bright hopes and ambitions of youth and with \$80. While the wife lay ill and alone in a rooming house, the husband was riding through the south part of town in a motor car pointing out to the officers the many houses he has robbed in the last week. In all more than a dozen houses were ransacked, the most of them owned by families spending the Christmas vacation out of Kansas City.

"My money gave out just a few days before Christmas," Howard confessed to Lieutenant F. H. Anderson. "My wife was sick, I could find no work and I did not know how to get something for her to eat, so I started robbing houses."

Howard was arrested by Officer Scott just as he was about to rob an apartment. He was a barber at Gordon.

LIKE A BATTLE'S DEATH HARVEST

Phthisis Kills Four Thousand Missourians Every Year.

HOW IT MAY BE WIPE OUT.

Kansas City, Dec. 31.—Tuberculosis causes 4,000 deaths a year in Missouri, one death in every ten. Means of prevention are known, which, if generally adopted, would wipe out the disease entirely.

Those facts and a plea for intelligent treatment of the condition were presented by Dr. E. W. Schauffler at a meeting of the Socialist Educational society. Dr. Schauffler is president of the Anti-Tuberculosis society of Jackson county and president of the board of managers of the Missouri sanatorium for tubercular patients at Mount Vernon.

Dr. Schauffler condemned the practice of kissing as a factor in the spread of the disease, and urged the passage and enforcement of laws prohibiting expectorating on public sidewalks.

Seek good air, avoid breathing house dust, drink pure water and pure milk, keep clean, eat clean food and chew it well, get plenty of sleep, stand and walk with head and shoulders erect, take plenty of exercise, avoid the liquor habit, don't neglect colds and get plenty of sunshine—those were the recommendations of Dr. Schauffler for combatting the disease.

The speaker urged that his listeners use their influence with members of the state legislature to procure an appropriation for doubling the capacity of the state hospital at Mount Vernon. He said that the present capacity of 140 beds was greatly inadequate.

CALVE PRAISED GIRL'S VOICE

Student at the Liberty Ladies' College Sang for the Diva.

Excelsior Springs, Mo., Dec. 31.—The honor of being first to have a private voice tryout in Missouri before Mme. Calve, the prima donna, who is visiting here, fell to Miss Rose Kessler, sixteen years old, a student at the Liberty Ladies' college. Miss Kessler sang for the diva at the home of her grandmother, Mrs. J. K. McLain.

"The voice has good quality and good timbre," said Mme. Calve, "but not the volume for grand opera. In light opera Miss Kessler could surpass."

Mme. Calve advised Miss Kessler to study in New York or Boston for a year and then, if the improvement warranted, go abroad.

Sea Isle City, N. In attempting to launch a lifeboat from the Margaret James Duffin, a member of the crew, was drowned, while the lifesaving crew from Tatham narrowly escaped a similar fate when their power boat capsized and all hands were thrown into the sea. All, however, reached the beach in safety. Duffin's body was washed ashore. Seattle, Wash., Dec. 31.—An explosion of the boiler of a rotary snow plow on the Great Northern and an avalanche that wrecked a stalled freight train laden with Oriental imports for the east on the Chicago, Milwaukee and Puget Sound railroad complicated conditions in the Cascade mountains, where the northern transcontinental railroads are fighting one of the worst blizzards of the last twenty years. Frank M. Ryan, president of the iron workers' international union, was given a sentence of seven years.

Olaf A. Tveitmo of San Francisco, convicted on charges of aiding in plotting the destruction of the Los Angeles Times building, and Eugene A. Clancy, also of San Francisco, were given six years each.

Herbert S. Hockin received six years.

List of Sentences.

Terms of imprisonment were imposed on the others as follows: John T. Butler of Buffalo, vice president, six years; Phillip A. Cooley of New Orleans, six years; Michael J. Young of Boston, two years; Frank J. Higgins of Boston, two years; J. E. Munsey of Salt Lake, six years; John H. Barry of St. Louis, four years; Paul J. Morrin of St. Louis, three years; Henry W. Leggett of Denver, three years; Charles N. Beum of Minneapolis, three years; Michael J. Cunnane of Philadelphia, three years; Richard H. Honihan of Chicago, two years; William S. Shupe of Chicago, one year and one day; Edward Smythe of Peoria, three years; James E. Ray of Peoria, one year and one day; Murray L. Pennell of Springfield, Ill., three years; William C. Bernhardt of Cincinnati, one year and one day; Wilford Bert Brown of Kansas City, three years; Frank K. Painter of Omaha, two years; Peter J. Smith of Cleveland, four years; George Anderson of Cleveland, three years; Michael J. Hannon of Scranton, three years; Edward E. Phillips of Syracuse, one year and one day; Charles Waechtmeyer of Detroit, one year and one day; Ernest G. W. Baisey of Indianapolis, three years; Fred Sherman of Indianapolis, two years; Fred J. Mooney of Duluth, one year and one day; William J. McCall of Kansas City, three years; William Reddin of Milwaukee, three years. Sentences on the following were suspended: Patrick F. Farrell of New York, James Cooney of Chicago, James Coughlin of Chicago, Hiram R. Kline of Muncie and Frank J. Murphy of Detroit.

A remarkable scene in the struggle of the wives of the prisoners to reach their husbands attended the sentences. It was ordered that all the spectators should be cleared from the room and the prisoners be allowed to talk with the members of their families.

Some of the men made pleas for mercy; others wept in the arms of their wives. But the court pronounced the sentences one by one regardless of the pleas.

Six Men Released.

Six men were given their liberty through suspended sentences. These included Edward Clarke of Cincinnati, the dynamiter who confessed to blowing up a bridge with the help of Hockin. He had appeared as a government witness.

Omie E. McManigal, another confessed dynamiter, was not sentenced.

In some cases sentences of one year and one day were imposed, so that these men might be confined in a federal prison. Prisoners with terms of less than one year are kept in county jails.

Federal Judge Albert B. Anderson had many of the prisoners who he said he considered less guilty than the rest brought before him to make statements. For an hour and a half the judge thus in a conversational way talked with prisoners asking them whether they believed in dynamiting as a method of promoting a strike.

All of the men professed innocence. Judge Anderson, after the sentences, read from the bench a statement in which he said: "The evidence shows some of these defendants to be guilty of murder, but they are not charged here with that crime; this court cannot punish them for it."

Picket squads of twelve have been posted at all the factories affected. In each squad were at least two women. Forty-five halls throughout the city have been engaged by the strikers for gathering places. Violence has been discontinued by the leaders, and the walkout was accompanied by no disorder.

WILSON'S WISHES NOT LIKELY TO CONTROL IN INAUGURAL.

CABINET AGITATES IT

Capital City Busy Naming Members—Redistricting Causes Worry—How Morgan's Fortune Was Built.

(By W. C. VanCleave.)

Washington, D. C., December 28.—Now that a chairman has been selected to head the committee on inauguration arrangements, Washington has settled down and imbibed the Christmas spirit. The matter of who shall be allowed to claim responsibility for the mistakes in the inaugural program next March and of who shall be floor manager for the inaugural ball are viewed by the permanent transients here with far greater concern than any policy of government. These contests for social supremacy and local notoriety never fail to precipitate a furious campaign. Being deprived of the right to vote and the joy of holding elections or city, county, state or national officials, the men of the district are compelled to spend their energies on matters that seem to the non-resident as wholly unimportant.

Notwithstanding the fact that Governor Wilson has requested that the inaugural ceremonies be as simple as possible, preparations are being made for an elaborate affair. An effort is being made to rid the city of vice and criminals for the protection of the visitors, and an adequate police force has been requested for the purpose of holding both visitors and residents within legitimate bounds. It has sometimes happened that the crowds could not be controlled. It is said, for instance, that when President McKinley was inaugurated the second time a regiment of soldiers from Pennsylvania took the town. They disarmed policemen, stopped milk wagons and drank the milk and committed all sorts of depredations. They were quartered in one of the public buildings and the state of Pennsylvania was afterward compelled to appropriate the sum of \$80,000 to reimburse the government for the damage done to that building. No such behavior as that is expected at the next inaugural.

The new cabinet is a source of much speculation among the politicians remaining here. Governor Wilson seems to be doing much conferring and advising with the leaders of all elements of the party but keeping his own counsel. So far all are at sea and he has announced that it will be several weeks yet before he makes known any of his selections. The cabinet makers, however, have allowed themselves no rest and persist in giving places to Mr. Bryan and a number of others. One of the latest ideas advanced makes Mr. Bryan secretary of state, Chairman McCombs secretary of the navy, Josephus Daniels of North Carolina postmaster general, Representative A. Mitchell Palmer of Pennsylvania attorney general, Representative Burleson secretary of the interior, Jack Walters, formerly of the Missouri college of agriculture at Columbia, but now head of the Kansas school, is being urged by many friends as the best equipped man in the country for secretary of agriculture.

Ex-Gov. Lon V. Stephens of St. Louis is a candidate for comptroller of the currency. He has special qualifications for the place and will have strong backing. James W. Witten of Albany, Mo., for several years chief law clerk in the general land office, is a candidate for commissioner of the general land office and will likely have the support of the Missouri delegation for the place.

Applicants for the various federal places at St. Louis and Kansas City are numerous and will likely cause distress to both senators and some of the members of the house. Senator Stone already has a good sized blank book well filled with the names of applicants for places, while Senator Reed is endeavoring to keep his list in a big filing cabinet.

A matter that is going to cause some concern to members of the Missouri delegation is the possibility of a general redistricting of the state. The new apportionment raised the average required population of congressional districts to about 210,000. There has been a considerable loss in some of the Missouri districts, a fact that is true over all North Missouri, and some

George Chamberlain Brought Suit Against A. O. Mason for Value of Some Property.

A petition was filed in the circuit clerk's office Tuesday by Attorney W. E. Wiles for George W. Chamberlain against A. O. Mason. According to the petition the plaintiff was the owner and was entitled to the immediate possession of the following personal property on December 27, 1912: One gray horse, 10 years old and weight about 1,400; one bay team of horses 8 and 9 years old, weight about 1,100; seven head of milch cows, 4 to 7 years old; one red bull, 3 years old. The aggregate value of all the stock is placed at \$705. On or after December 27, the petition states that the defendant, being then wrongfully in possession of said personal property, unlawfully converted the same to his own use and sold and disposed of same to plaintiff's damage in the sum of \$705. The plaintiff asks for \$705 with interest from December 27.

SIMMONS GETS IT

ELMO PROPERTY GOES TO KANSAS MAN ON COMPROMISE.

SETTLED OUT OF COURT

Many Younger Cases Disposed of in Deal and Receiver Discharged—Bank Releases Real Estate.

Many cases against Joe Younger, Carrie Younger and the Elmo Improvement and Business company which have been up in circuit court for some time were settled today by agreement of several of the plaintiffs in the various suits.

Judgment, foreclosure and an order of sale was given to O. A. Simmons of Atchison, Kan., on all of the real estate in Elmo. This consists of the opera house building, the light plant building, four store buildings and the residence. Mr. Simmons will probably also get the Westboro property. His claim was for \$3,507.24.

The receivership as to the property was dissolved and the receiver, Geo. W. Walton of Elmo discharged.

In the attachment suit of the Nodaway Valley bank against Joe and Carrie Younger, the plaintiff releases real estate levied upon on writ of attachment. The attachment suit is still in court, however, on the personal property of Younger. Younger had about \$700 personal property, consisting of household goods and many other articles.

There will still remain on the court docket a few suits against Younger, such as attachment suits, but the largest claims against the former Elmo financier were all settled.

NEW TEACHER AT CONSERVATORY

Graduate of One of the Oldest Schools of Music in the Country Coming Next Week.

Miss Gayle Jackson, a graduate and post-graduate of the conservatory of music of Cincinnati, O., one of the oldest schools of music in the country, will arrive in Maryville next week to become a member of the faculty of the Maryville Conservatory of Music. Miss Jackson has been a soloist in some of the best choirs in Cincinnati, and comes well recommended.

Miss Norris of Donaldsonville, La., who was announced last week for the position that will be taken by Miss Jackson, could not come to Maryville until the close of her contract with the college with which she is connected, as the board of trustees would not release her.

REVIVAL SERVICES START AT HARMONY CHURCH NEXT SUNDAY

REV. DR. NORMAN H. CAMP.

Revival services will begin next Sunday, January 5, at 11 o'clock, at the Harmony church, eleven miles north-east of Maryville.

The Rev. Dr. Norman H. Camp of Chicago has been secured to do the preaching for the meeting. He has been connected with the Moody institute of Chicago for several years and is recognized as one of its best men and most successful evangelists.

The pastor of the Harmony church,

NEW LAW IN FORCE

WEDNESDAY SEES START OF PARCELS POST SYSTEM.

THE NEW REGULATIONS

Department Prescribes the General Rules, But Local Authorities Are Expected to Use Discretion.

Everything is in readiness at the postoffice for the installation of the parcels post system, which goes into effect throughout the United States Wednesday. While the general regulations sent out by the postoffice department have been specific, much has been left to the discretion of postmasters, who are expected to work out the local details.

All parcels for mailing will be received at the window used by the registry department, and when this is opened at 8:30 o'clock Wednesday morning the parcels post system will be in operation. Above the window will be placed a placard, upon which will be these words in large letters: "Parcels post, Stamp, Rate and Mail at This Window."

Following are some of the general rules that will apply to the mailing of parcels: All parcels must bear the parcels post stamps; parcels may be mailed just as other mail matter; parcels post matter will be delivered at the door by carriers.

The maximum weight for parcels is eleven pounds and they must not measure more than twenty-two inches in width. They may be insured for their value for any amount up to \$50 by the payment of 10 cents.

It is expected that the railway mail clerks will feel the parcels post more heavily than any other branch of the postoffice department, and it is predicted that it will be inconvenient, owing to lack of car space.

There arrived at the postoffice this morning from Washington three rubber stamps carrying the words "Insured," "Perishable" and "Fragile." They are to be used on parcels post packages.

Parcels must not be sealed and must be so prepared as to permit of easy examination. Such parcels as contain two or more classes of mail matter are chargeable with postage at the rate prescribed for the higher class.

All matter which is declared unavailable by law will be unavailable as parcels post matter. This includes obscene, indecent and immoral matter, intoxicating liquors, poisons, live animals, birds and poultry, inflammable

articles and such things as raw hides or pelts or other articles having a bad odor.

The regulations prescribe minutely methods to be used in packing parcels. Liquids and oils, paste and salve, sharp instruments, ink powders, pepper and snuff, must be placed in water-tight receptacles, and in many instances surrounded by absorbent material to prevent damage to other mail matter.

Articles such as millinery, toys, musical instruments and glassware must be labeled "fragile."

One of the interesting features of the regulations concerns perishable articles. In this class are placed butter, lard, fish, fresh meats, dressed fowls, vegetables and fruits and berries. Provision is made for carrying almost every article produced in the farm except live animals and live fowls.

BELL TRANSFER MADE.

Hanamo Takes Over Local Switchboard While Bell Acquires Toll Lines.

The sale of the Bell local exchange to the Hanamo company of this city was made today, so it was announced this afternoon. The papers were all signed and the Bell plant will be combined with the Hanamo.

The closing details of the deal were made at Kansas City, where Manager H. C. Todd and Attorney George Robb Ellison are today.

The Hanamo is to take over only the Bell local exchange. It will probably take three or four months to arrange all of the phones and to connect them with one office. Then a new switchboard is to be put in so the Hanamo will have the latest and most up to date service.

The Bell will still have an office in Maryville, as that company is to take over all of the Hanamo toll lines and also their own toll lines. Any phone subscriber of the Hanamo, however, can use these toll lines at same rates as now charged, as the Bell and Hanamo will be connected with trunk lines for long distance service.

Manager W. E. Jones of the Bell exchange will remain in the city for three or four months until the transfer of the property is made. After that he has a fine position offered to him at some other place by the Bell company.

ANNIVERSARY JUBILEE.

Gulford M. E. Church, South, Will Celebrate Birthday of Church Dedication January 12.

On Sunday, January 12, the members of the M. E. church, South, at Gulford and their friends will celebrate the second anniversary of the dedication of their church edifice with an all-day meeting. The present church building was dedicated on the 15th of January, 1911.

Rev. S. E. Hoover, pastor of the Gulford and Ravenwood circuit, will preach three sermons that day, the first at 11 o'clock, the second at 2:30 in the afternoon and the third at 7:30 in the evening.

Dinner will be enjoyed at the church, so that a social time may be enjoyed and give all opportunity to attend all the services if they wish.

The day will begin with Sunday school at the usual hour and the Epworth League service will be held at 6:30.

Rev. J. D. Randolph, pastor of the M. E. church, South, of Maryville, has the credit for the preliminary work that ended in a church house for the South Methodists of Gulford. The dedication service was held by the then presiding elder, Rev. W. E. McMurray of St. Joseph, who is now secretary of the South Methodist board of missions.

LEAVES IT ALL FOR MAJOR.

Hadley Announces He Will Not Fill the Vacancies That Will Occur on Boards.

Governor Hadley stated Monday that he would not fill any vacancy occurring on the boards of any of the state educational institutions January 1, but will leave these appointments to Governor Major. He says he does this because Governor Folk treated him with the courtesy of not filling vacancies just before he went out of office, and he will extend the same courtesy to his successor in office.

Two of these vacancies are for the Maryville State Normal. The terms of Henry J. Hughes, Trenton, and O. P. Wilson, Plattsburg, Republicans, will expire January 1.

The governor also said he would not take up any more applications for pardons or paroles during the remainder of his term. There are fifteen or twenty cases now under consideration and these will be all that he will have time to consider.

A DOUBLE CONTEST

ORAL AND WRITTEN TESTS FOR BEST SPELLERS.

THREE PRIZES IN EACH

County Contest to Be Held March 7, and the Winner of Written Contest to Represent County.

The Nodaway county spelling contest will be held in Maryville Friday, March 7. There will be a double contest, written and oral spelling. The written contest will be held from 4 to 5 o'clock on that day and the oral contest will begin at 7:30 o'clock that evening. Both contests will be held in the high school building.

The following are the rules of the contest and the committees in charge for each township as announced by County Superintendent Oakerson:

Township preliminary contests will be held about two weeks prior to the county contests. The committee appointed for each township will arrange the time, place and judges for the preliminary contests. I would suggest that they be held on Friday, February 21, or Saturday, February 22.

Each school is entitled to three representatives to the county contest. The representatives from each township will be selected by preliminary contests.

All pupils, in the first eight grades, attending the public schools for three-fourths of the term prior to the preliminary contest, shall be eligible to enter this contest, except such pupils as may have received the common school diploma, or are doing high school work.

There will be a double contest, a written contest and an oral contest. The contests will be held in the Maryville high school building. The written contest will be held from 4 to 5 p. m. and the oral contest will begin at 7:30 p. m.

Prizes will be given for both contests. Three prizes will be given for each: First prize, a gold medal; second prize, a silver medal; third prize, a bronze medal. The one who wins the first place in the written contest will be a delegate to the state spelling contest.

Each pupil will be allowed only one trial on spelling a word. A word misspelled will not be passed, but marked against the one who misses it and another word pronounced to the next one to spell.

The words used in the contest will be found in "Hunt's Progressive Speller," beginning on page 100.

Editor Democrat-Forum: I would like to call the attention of the citizens of Maryville to what I consider a great nuisance to a beautiful and clean Maryville.

I would also like to ask if there is not an ordinance against draymen loading their wagons so full of garbage that they scatter it over the streets, leaving it for every wind to scatter over the parkways, lawns, etc.?

I have noticed draymen drive along the streets dropping old shoes, papers, tin cans, straw, sticks and whatever the wagon happens to be loaded with. I believe it is the duty of the city officials to see that this thing is stopped.

Yours for a cleaner and better Maryville.

of the members see all sorts of trouble ahead.

J. Pierpoint Morgan's recent appearance before the investigating committee furnished many an opportunity to get their first look at the wizard of Wall street. Strange to say he appears, generally speaking, not unlike other individuals one meets here daily. He has neither a prize fighter's nor a lion's jaw. He wears no diamonds. He has neither rings in his ears nor bells on his toes. He wears a silk hat which is a common practice in the east among men of means. His forehead slopes to leeward, but it is a wise head. He has a nervous, fidgety manner, and when he speaks his jaws come together with a snap like an alligator. He has a large nose, unnaturally large at the point. He assumes, moreover, a most becoming innocence of the power of concentrated wealth. Although it was shown that he controls the interlocking directorates in corporations with more than twenty-five billions of capital, he meekly confessed that he had no influence that would induce them to do anything contrary to the interests of the stockholders and the general public. Mr. Morgan found it difficult to adjust his ideas of what constituted a great amount of wealth to the notions of his hearers. When Samuel Untermyer asked him if he was not largely interested in a certain New York bank he said he was not.

"You own a large amount of stock, do you not?" insisted the attorney.

"No, only a small amount," said Mr. Morgan.

"Well, now, don't you own more than a million dollars worth of the stock?" continued Mr. Untermyer.

"Oh, yes, yes, but I do not remember the exact amount."

Mr. Morgan did not join in the laugh that went around the room because he saw nothing funny, nothing unusual in it. As the elephant of the jungle trends unconsciously upon the worm of the dust and crushes out its life, so this man, who counts not his thousands but his hundreds of millions, takes his walks in Wall street and the fortunes of thousands of his fellow men crumble in his wake—and he knows it not.

HIS TROUBLE NOT OF HEART

Real Facts In Regard To F. R. Huffman's Illness. Relief Obtained By Curing His Stomach Ailments.

Waynesville, N. C.—Mr. F. R. Huffman, of this city, says: "I suffered dreadfully with what I thought was heart trouble, and tried various medicines in vain.

After other remedies had failed, Thedford's Black-Draught restored me to health. I would not feel safe without Black-Draught in the house. I consider it worth its weight in gold.

It cured my indigestion, and by this means I was restored to health. I can not express my gratitude for its benefits."

Good health depends on the condition of your digestion. Poor digestion and good health do not go together.

Thedford's Black-Draught will thoroughly cleanse and set in order your digestive system.

It has done this for others, during the past 70 years, and is today the most popular vegetable liver remedy on the market. Try it.

A very unique leap year party was given at the opera house last Saturday night by Misses Della Nash, Cloe Jefferies, Bess Burch and Lottie Loudon. The list of guests included the members of the Dresswell club and a few of their friends. Each guest was asked to dress as a country kid, and the opera house was designated as the country home of the young ladies giving the party. We think the idea was not carried out very well, as the country kids are the best dressed people we see nowadays, while some of the costumes at this party will go down in history for the originality and artistic taste displayed (?). Miss Lou Hughes received the prize for the best lady's costume and Rex Lincoln for the best gentleman's costume. Refreshments were served at intervals during the evening, consisting of popcorn, apples, nuts, candy, pumpkin pie, cider, etc. The following members of the club and their gentlemen friends were present: Mrs. O. L. Mutti, Misses Lottie Miller, Helen McKee, Lou Hughes, Lois Bonewitz, Edna Bonewitz, Bertha Cross, Frances Miles, Ethel Ulmer, Cleo Kime, Gladys Pennington, and the hostesses, Della Nash, Cloe Jefferies, Bess Burch and Lottie Loudon.

MEDIATION IS TURKEY'S PLAN

Rechad Pasha Shows His Hand
After Two Weeks of Delay.

PORTE WOULD SAVE ITS FACE

Balkan Delegates Intend to Present Ultimatum at Next Session of Conference and Will Waste No More Time—Expect to Force Crisis.

London, Dec. 31.—After a fortnight of sparring and feinting Turkey has finally shown its hand in the peace conference. Mediation by the great powers is the Ottoman scheme for emerging from the war with the best face for the nation and for the plenipotentiaries which the situation will permit.

The Turkish delegates proposed this solution in diplomatic, guarded terms. The meeting was brief and more restrained than any which preceded it and the Turkish tactics were characteristic.

The delegation had received fresh instructions from the porte, Rechad Pasha announced, but part of the telegram was undecipherable and must be repeated to Constantinople for translation. Then Rechad Pasha came to the point to which the Ottomans had been leading up since the beginning. In the opinion of their opponents he declared he was able to state that most of the questions under discussion should be referred to the powers. The boundary between Bulgaria and Turkey was an exception; that was a matter, he said, for direct settlement between the two governments.

Allies Tire of Delay.
From the Turkish delegates attempted to discuss the questions at issue informally, but the allies insisted they should put their propositions in writing, which, after a conference, the Turks said they were not prepared to do.

The allies propose to bring affairs to a crisis by a statement in the nature of an ultimatum at the session of the conference tomorrow. They express the determination not to waste more time in waiting for telegrams and consultations, real or pretended between Constantinople and the Turkish delegates in London, and will meet at an early hour tomorrow to decide upon their policy.

M'VEAGH ORDERS CHANGE

Federal Disbursing Officer's Checks to Be Cashed by National Banks.

Washington, Dec. 31.—Secretary MacVeagh ordered a revolutionary change in the business methods of the treasury department in handling the income and expenditures of the federal government which is expected to lessen interference by the treasury with the fiscal operations of the country, make the government deposits in United States depositories more active and more to the benefit of the public by obviating the payment of exchange on government checks.

Effective Feb. 1, the accounts of the federal disbursing officers will be placed with the treasurer of the United States and all disbursing officers' checks drawn on that official may be cashed by any national bank designated as a United States depository. Banks making such payments may immediately replenish the specified account from federal customs or internal revenue receipts daily deposited. The banks thus will forward to the treasuries only the excess of receipts over expenditures. If the expenditures are greater than the receipts the treasuries will supply the deficiency.

ROBS DOZEN HOUSES

Barber Turns Burglar to Keep His Wife From Death's Door.

KANSAS CITY, Dec. 31.—Five weeks ago William Howard, nineteen years old, and his wife, eighteen years old, came to Kansas City from Gordon, Neb., filled with the bright hopes and ambitions of youth and with \$80. While the wife lay ill and alone in a rooming house, the husband was riding through the south part of town in a motor car pointing out to the officers the many houses he has robbed in the last week. In all more than a dozen houses were ransacked, the most of them owned by families spending the Christmas vacation out of Kansas City.

"My money gave out just a few days before Christmas," Howard confessed to Lieutenant F. H. Anderson. "My wife was sick, I could find no work and I did not know how to get something for her to eat, so I started robbing houses."

Howard was arrested by Officer Scott just as he was about to rob an apartment. He was a barber at Gordon.

Business of National Banks Increasing

Washington, Dec. 31.—Reports from national banks to the comptroller of the currency in response to the call of Nov. 26 reflect the tightness of money at that time, but show a marked growth of banking during the last year.

LIKE A BATTLE'S DEATH HARVEST

Phthisis Kills Four Thousand
Missourians Every Year.

HOW IT MAY BE WIPED OUT.

Kansas City, Dec. 31.—Tuberculosis causes 4,000 deaths a year in Missouri, one death in every ten. Means of prevention are known, which, if generally adopted, would wipe out the disease entirely.

Those facts and a plea for intelligent treatment of the condition were presented by Dr. E. W. Schaeffer at a meeting of the Socialist Educational society. Dr. Schaeffer is president of the Anti-Tuberculosis society of Jackson county and president of the board of managers of the Missouri sanatorium for tubercular patients at Mount Vernon.

Dr. Schaeffer condemned the practice of kissing as a factor in the spread of the disease, and urged the passage and enforcement of laws prohibiting expectorating on public sidewalks.

Seek good air, avoid breathing house dust, drink pure water and pure milk, keep clean, eat clean food and chew it well, get plenty of sleep, stand and walk with head and shoulders erect, take plenty of exercise, avoid the liquor habit, don't neglect colds and get plenty of sunshine—those were the recommendations of Dr. Schaeffer for combatting the disease.

The speaker urged that his listeners use their influence with members of the state legislature to procure an appropriation for doubling the capacity of the state hospital at Mount Vernon. He said that the present capacity of 140 beds was greatly inadequate.

CALVE PRAISED GIRL'S VOICE

Student at the Liberty Ladies' College Sang for the Diva.

Excelsior Springs, Mo., Dec. 31.—The honor of being first to have a private voice tryout in Missouri before Miss Calve, the prima donna, who is visiting here, fell to Miss Kessler, sixteen years old, a student at the Liberty Ladies' college. Miss Kessler sang for the diva at the home of her grandmother, Mrs. J. K. McLain. "The voice has good quality and good timbre," said Miss Calve, "but not the volume for grand opera. In light opera Miss Kessler could succeed."

Miss Calve advised Miss Kessler to study in New York or Boston for a year and then, if the improvement warranted, go abroad.

Rates Suspended by Commission.

Washington, Dec. 31.—A freight tariff filed on behalf of all the western lines and providing that joint through class rates will not apply between Missouri river points and Mississippi river transfer points and certain stations between St. Louis and Memphis was suspended by the interstate commerce commission until May 1. The effect of the proposed tariff would be to increase the first class rate 25 cents a hundred pounds, with proportionate increase on the lower classes.

Excelsior Springs, Mo., Dec. 31.—Tray L. Kellerman, a cable splicer for the Home Telephone company, fell thirty-five feet while repairing a telephone cable in the alley back of the Montezuma bath house at Excelsior Springs. He was taken into the Sanatorium. Internal injuries may prove fatal.

SIXTY-MILE GALE SWEEPS WYOMING

Many Buildings Wrecked and
Ranch Losses Heavy.

Sheridan, Wyo., Dec. 31.—Breaking all records for wind velocity, a sixty-mile gale wreaked havoc throughout Sheridan county. Many buildings were wrecked and others destroyed by fire spread by the high wind.

While the city escaped material damage, ranch losses were heavy. At the Wallop ranch, fifteen miles south of the city, burning brands were carried a distance of a mile across the fields, setting fire to haystacks and buildings in their path.

The new \$28,000 Masonic temple at Cody was blown to the ground. Much other damage was done by the storm.

RESCUED FROM SEA

Ocean-Going Tug Being Pounded to Pieces on New Jersey Shore.

Sea Isle City, N. J., Dec. 31.—After a desperate battle against heavy seas and a thirty-mile gale at Seven-Mile beach, lifesavers succeeded in rescuing ten of the eleven members of the crew of the ocean-going tug Margaret. In attempting to launch a lifeboat from the Margaret James Duffin, a member of the crew was drowned, while the lifesaving crew from Tatham narrowly escaped a similar fate when their power boat capsized and all hands were thrown into the sea. All, however, reached the beach in safety. Duffin's body was washed ashore. The Margaret is being pounded to pieces by the heavy surf, while the government's abandoned power boat washed ashore at Avalon.

WORST BLIZZARD IN YEARS

Train Completely Crushed by Snow. Boiler of Rotary Plow Blows Up.

Seattle, Wash., Dec. 31.—An explosion of the boiler of a rotary snow plow on the Great Northern and an avalanche that wrecked a stalled freight train laden with Oriental imports for the east on the Chicago, Milwaukee and Puget Sound railroad complicated conditions in the Cascade mountains, where the northern transcontinental railroads are fighting one of the worst blizzards of the last twenty years. Five men were injured, two probably fatally, in the boiler explosion and one man was severely hurt in the avalanche.

The Milwaukee line probably will be blocked several days, but the Great Northern expected to get trains through today.

A remarkable scene in the struggle of the wives of the prisoners to reach their husbands attended the sentences. It was ordered that all the spectators should be cleared from the room and the prisoners be allowed to talk with the members of their families.

Some of the men made pleas for mercy; others wept in the arms of their wives. But the court pronounced the sentences one by one regardless of the pleas.

Six Men Released.

Six men were given their liberty through suspended sentences. These included Edward Clarke of Cincinnati, the dynamiter who confessed to blowing up a bridge with the help of Hockin. He had appeared as a government witness.

Omie E. McManigal, another confessed dynamiter, was not sentenced.

In some cases sentences of one year and one day were imposed, so that these men might be confined in a federal prison. Prisoners with terms of less than one year are kept in county jails.

Federal Judge Albert B. Anderson had many of the prisoners who he said he considered less guilty than the rest brought before him to make statements. For an hour and a half the judge thus in a conversational way talked with prisoners asking them whether they believed in dynamiting as a method of promoting a strike.

All of the men professed innocence. Judge Anderson, after the sentences read from the bench a statement in which he said: "The evidence shows some of these defendants to be guilty of murder, but they are not charged here with that crime; this court can not punish them for it."
